EXPERIENCE

Broadstairs IT solutions — *Jr. Software Developer*

Sept 2022 - PRESENT

- Spearheaded the optimization initiative, resulting in a substantial decrease in application loading time.

- Utilized Jira for efficient project management, ensuring a streamlined development process.

- Collaborated seamlessly with backend developers, providing expertise to achieve integrated and high-performing solutions.

PROJECTS

Employee Management System — *React.js, Javascript, Redux, Postman*

- Developed a robust Leave Management System with ReactJS and Redux, featuring advanced functionalities. Achieved a notable 30% boost in application performance for enhanced user responsiveness.

- Conducted thorough testing of API endpoints using Postman, ensuring the reliability and correctness of data exchanges

- Implemented a secure login page with React Router DOM, ensuring robust user authentication and access controls.

- Reduced loading times by 0.5ms through strategic code optimization, demonstrating a commitment to enhancing system performance

Interactive-Card-Details — *Javascript, HTML5, CSS3*

- Demonstrated expertise in delivering a cutting-edge user experience by implementing innovative functionalities

- Successfully navigated challenges related to meticulous form validation, ensuring data accuracy and a streamlined user journey.

- Proactively addressed and resolved challenges to maintain optimal responsiveness, even during periods of high user activity.

Rapid Reservation — *React.js, Javascript, HTML5, CSS3*

- Addressed challenges in state management, optimizing data handling and improving application flow.

- Collaborated cross-functionally to integrate external libraries, ensuring seamless functionality.

Summary

Experienced React Developer with 1.5 years in the field, showcasing expertise in FrontEnd Technologies. Proven history of improving project loading times and adept at tackling intricate problem-solving tasks.

SKILLS

Language: JavaScript, HTML5, CSS3
Libraries: ReactJS, Redux, Router DOM, Material UI. Ajax, SASS
Dev-Tools: Jira, VSCode, Github, Postman,

EDUCATION

Bachelor of Engineering ,
—College of Engineering and Technology
July 2017 - Aug 2021

HSC, — *Jyoti Janolkar Vidyalaya*
Mar 2016 - Feb 2017
