SUMMARY

Experienced Software Developer proficient in frontend and backend technologies such as React.js, JavaScript, Redux, HTML5, CSS3, and Material UI. Skilled in code development, optimization, and enhancing user experience. Experienced in API testing with Postman, project management with Jira. Seeking opportunities in a dynamic development environment.

SKILLS

• ReactJS	• JavaScript	• TypeScript	• Redux	• Router Dom
• HTML5	• CSS3	• SCSS	• Material UI	• Shadcn
• NodeJs	• ExpressJS	• MongoDB	• Rest API	• Postman

PROJECTS

MemonID — *React.js, Javascript, Redux, Postman, Material UI*

- Enhanced Memon ID social community portal features for improved functionality and user experience.
- Resolved numerous bugs through rigorous testing and collaboration, resulting in a 5% increase in app stability.
- Implemented and optimized code for a custom calendar component in the Memon ID project, improving its performance and functionality.
- Utilized Jira board to log and prioritize bugs, as well as plan and track tasks, ensuring a systematic approach to coding and project management.

Employee Management System — *React.js, Javascript, Redux, Postman*

- Created an Employee Management System with React, implementing role-based access control for user privileges.
- Designed a user-friendly interface with CRUD operations for effective employee data management.
- Integrated a calendar feature for scheduling events and tracking attendance, enhancing organizational efficiency.
- Implemented a notification system to keep users informed about important updates and events, improving communication within the organization.

Coaching Management System — *React.js, Javascript, Redux, Postman*

- Developed a comprehensive application for student and teacher management, allowing students to enroll, track syllabus completion, and view attendance records.
- Implemented functionality for students to add topics and chapters, organized by subject categories, enhancing their learning experience.
- Integrated links for accessing lectures and clearing topics, providing additional resources for students.

EXPERIENCE

Broadstairs IT solutions — Software Developer   Sept 2022 - Present

EDUCATION

Bachelor of Engineering (CSE),   July 2017 - Aug 2021

College of Engineering and Technology Akola ,   CGPA : 9.85

ACHIEVEMENT

Led tasks for developing a WordPress ecommerce site. Liaised with clients, ensuring clear communication and detailed instructions to the team.
